**Important:**
- Scheduling, priority code calendar and more information can be found on our Ford Fleet Website [www.fleet.ford.ca](http://www.fleet.ford.ca) (contact our Fleet Headquarters to request your access focfhq@ford.com).
- This document is meant to serve as a point of reference to help determine when orders may be submitted to the plant. Every attempt is made to honor requested production period. Due to unforeseen circumstances such as plant downtime/commodity issues etc., this may affect the timeline.
- Orders are selected for scheduling based on production month request (priority code) first, then by receipt date. Despite how long an order has been unscheduled, if the plant is not yet filling the production week associated with the requested priority code, the order will be scheduled for the following production month.
- The information and estimated timing indicated above are correct at time of publication. Availability and timing are subject to change without notice. Acceptance of an order by Ford Motor Company does not constitute a commitment to build or a guaranteed delivery date.
- For larger accounts it is recommended that ordering needs are discussed in advance with Ford.
- For ship thru orders, please check with your upfitter and add extra build/transit time to the Ford lead time for a more accurate OTD estimate.
- To limit commodity issues, fleet scheduling may be moved to the first half of the requested months production.
